

# the Master Course

{C0DENATION}

# Learning Objectives

**To work as part of a team.**

**To create a presentation and deliver it to your peers.**

**To be able to understand further CSS.**

# Peer Teaching

Some of your best resources are each other.

# Activity

You will be put into small teams, and your task is to **research specific CSS properties**, how to use them, the values they can take, the units you can use, as much info as possible really.

You will put this information into a presentation (use Keynote) and deliver a **micro teaching session**.

# Activity

**You have 1.5 hours research/practice/prep time.**

**Micro-teach sessions** to last at least 10 mins.

**I will give you a specific type of property and you need to gather as much information as you can about it.**

# Activity

**You should **understand**:**

**What the property does.**

**What values you can give it.**

**Provide examples of its use.**

**Try not to include anything you don't really understand**

# CSS Flexbox
